197.315. 1. Any person who proposes to develop or offer a new
2 institutional [health] **long-term care** service within the state must obtain a
3 certificate of need from the committee prior to the time such services are offered.

4 2. Only those new institutional [health] **long-term care** services which
5 are found by the committee to be needed shall be granted a certificate of
6 need. Only those new institutional [health] **long-term care** services which are
7 granted certificates of need shall be offered or developed within the state. No
8 expenditures for new institutional [health] **long-term care** services in excess of
9 the applicable expenditure minimum shall be made by any person unless a
10 certificate of need has been granted.

11 3. After October 1, 1980, no state agency charged by statute to license or
12 certify [health] **long-term** care facilities shall issue a license to or certify any
13 such facility, or distinct part of such facility, that is developed without obtaining
14 a certificate of need.

15 4. If any person proposes to develop any new institutional [health] **long-**
16 **term** care service without a certificate of need as required by sections 197.300 to
17 197.366, the committee shall notify the attorney general, and [he] **the attorney**
18 **general** shall apply for an injunction or other appropriate legal action in any
19 court of this state against that person.

20 5. After October 1, 1980, no agency of state government may appropriate
21 or grant funds to or make payment of any funds to any person or [health] **long-**
22 **term** care facility which has not first obtained every certificate of need required

23 pursuant to sections 197.300 to 197.366.

24 6. A certificate of need shall be issued only for the premises and persons
25 named in the application and is not transferable except by consent of the
26 committee.

27 7. Project cost increases, due to changes in the project application as
28 approved or due to project change orders, exceeding the initial estimate by more
29 than ten percent shall not be incurred without consent of the committee.

30 8. Periodic reports to the committee shall be required of any applicant
31 who has been granted a certificate of need until the project has been
32 completed. The committee may order the forfeiture of the certificate of need upon
33 failure of the applicant to file any such report.

34 9. A certificate of need shall be subject to forfeiture for failure to incur a
35 capital expenditure on any approved project within six months after the date of
36 the order. The applicant may request an extension from the committee of not
37 more than six additional months based upon substantial expenditure made.

38 10. Each application for a certificate of need must be accompanied by an
39 application fee. The time of filing commences with the receipt of the application
40 and the application fee. The application fee is one thousand dollars, or one-tenth
41 of one percent of the total cost of the proposed project, whichever is greater. All
42 application fees shall be deposited in the state treasury. Because of the loss of
43 federal funds, the general assembly will appropriate funds to the Missouri health
44 facilities review committee.

45 11. In determining whether a certificate of need should be granted, no
46 consideration shall be given to the facilities or equipment of any other [health]
47 **long-term** care facility located more than a fifteen-mile radius from the applying
48 facility.

49 12. When a nursing facility shifts from a skilled to an intermediate level
50 of nursing care, it may return to the higher level of care if it meets the licensure
51 requirements, without obtaining a certificate of need.

52 13. In no event shall a certificate of need be denied because the applicant
53 refuses to provide abortion services or information.

54 14. A certificate of need shall not be required for the transfer of ownership
55 of an existing and operational [health] **long-term care** facility in its entirety.

56 15. A certificate of need may be granted to a facility for an expansion, an
57 addition of services, a new institutional service, or for a new [hospital] **long-**
58 **term care** facility which provides for something less than that which was sought

59 in the application.

60 16. The provisions of this section shall not apply to facilities operated by
61 the state, and appropriation of funds to such facilities by the general assembly
62 shall be deemed in compliance with this section, and such facilities shall be
63 deemed to have received an appropriate certificate of need without payment of
64 any fee or charge.

65 17. Notwithstanding other provisions of this section, a certificate of need
66 may be issued after July 1, 1983, for an intermediate care facility operated
67 exclusively for the mentally retarded.

68 18. To assure the safe, appropriate, and cost-effective transfer of new
69 medical technology throughout the state, a certificate of need shall not be
70 required for the purchase and operation of research equipment that is to be used
71 in a clinical trial that has received written approval from a duly constituted
72 institutional review board of an accredited school of medicine or osteopathy
73 located in Missouri to establish its safety and efficacy and does not increase the
74 bed complement of the institution in which the equipment is to be located. After
75 the clinical trial has been completed, a certificate of need must be obtained for
76 continued use in such facility.

 197.317. 1. After July 1, 1983, no certificate of need shall be issued for
2 the following:

3 (1) Additional residential care facility I, residential care facility II,
4 intermediate care facility or skilled nursing facility beds above the number then
5 licensed by this state;

6 (2) Beds in a licensed hospital to be reallocated on a temporary or
7 permanent basis to nursing care or beds in a long-term care hospital meeting the
8 requirements described in 42 CFR, Section 412.23(e), excepting those which are
9 not subject to a certificate of need pursuant to paragraphs (e) and (g) of
10 subdivision (10) of section 197.305; nor

11 (3) The reallocation of intermediate care facility or skilled nursing facility
12 beds of existing licensed beds by transfer or sale of licensed beds between a
13 hospital licensed pursuant to this chapter or a nursing care facility licensed
14 pursuant to chapter 198, RSMo; except for beds in counties in which there is no
15 existing nursing care facility. No certificate of need shall be issued for the
16 reallocation of existing residential care facility I or II, or intermediate care
17 facilities operated exclusively for the mentally retarded to intermediate care or
18 skilled nursing facilities or beds. However, after January 1, 2003, nothing in this

19 section shall prohibit the Missouri health facilities review committee from issuing
20 a certificate of need for additional beds in existing [health] **long-term** care
21 facilities or for new beds in new [health] **long-term** care facilities or for the
22 reallocation of licensed beds, provided that no construction shall begin prior to
23 January 1, 2004. The provisions of subsections 16 and 17 of section 197.315 shall
24 apply to the provisions of this section.

25 2. The health facilities review committee shall utilize demographic data
26 from the office of social and economic data analysis, or its successor organization,
27 at the University of Missouri as their source of information in considering
28 applications for new institutional long-term care facilities.

197.325. Any person who proposes to develop or offer a new institutional
2 [health] **long-term care** service shall submit a letter of intent to the committee
3 at least thirty days prior to the filing of the application.

197.340. Any [health] **long-term care** facility providing a [health] **long-**
2 **term care** service must notify the committee of any discontinuance of any
3 previously provided [health] **long-term** care service, a decrease in the number
4 of licensed beds by ten percent or more, or the change in licensure category for
5 any such facility.

197.345. Any [health] **long-term care** facility with a project for facilities
2 or services for which a binding construction or purchase contract has been
3 executed prior to October 1, 1980, or [health] **long-term** care facility which has
4 commenced operations prior to October 1, 1980, shall be deemed to have received
5 a certificate of need, except that such certificate of need shall be subject to
6 forfeiture under the provisions of subsections 8 and 9 of section 197.315.

197.355. The legislature may not appropriate any money for capital
2 expenditures for [health] **long-term** care facilities until a certificate of need has
3 been issued for such expenditures.

197.357. For the purposes of reimbursement under section 208.152, RSMo,
2 project costs for new institutional [health] **long-term care** services in excess of
3 ten percent of the initial project estimate whether or not approval was obtained
4 under subsection 7 of section 197.315 shall not be eligible for reimbursement for
5 the first three years that a facility receives payment for services provided under
6 section 208.152, RSMo. The initial estimate shall be that amount for which the
7 original certificate of need was obtained or, in the case of facilities for which a
8 binding construction or purchase contract was executed prior to October 1, 1980,
9 the amount of that contract. Reimbursement for these excess costs after the first

10 three years shall not be made until a certificate of need has been granted for the
11 excess project costs. The provisions of this section shall apply only to facilities
12 which file an application for a certificate of need or make application for
13 cost-overrun review of their original application or waiver after August 13, 1982.

197.366. The provisions of subdivision (8) of section 197.305 to the
2 contrary notwithstanding, after December 31, [2001] **2005**, the term "health care
3 facilities" in sections 197.300 to 197.366 shall mean:

- 4 (1) Facilities licensed under chapter 198, RSMo;
- 5 (2) Long-term care beds in a hospital as described in subdivision (3) of
6 subsection 1 of section 198.012, RSMo; **and**
- 7 (3) Long-term care hospitals or beds in a long-term care hospital meeting
8 the requirements described in 42 CFR, section 412.23(e); and
- 9 (4) Construction of a new hospital as defined in chapter 197].
